PROFILE

I am a global finance leader with 20+ years scaling and transforming multinational finance operations — shared services (SSC/GBS), order-to-cash, source-to-pay and credit management. I took a shared-services operation through a post-merger restructuring that cut cost by 40% and reached top-quartile benchmarks, moved subprocesses to BPO partners without losing service quality, and led up to 250 people across four regions. What matters to me is clean, reliable numbers, processes people can easily follow, clear communications and teams that see how their work connects to the business — the same principles I now apply as a CFO of a Hungarian company.

SELECTED ACHIEVEMENTS

- ▶ **New ERP implemented as CFO** at Natur Tanya Kft — reconciled accounting data into one reliable source and cut external accounting cost by 25%.
- ▶ **40% cost reduction** in source-to-pay post-merger, while raising delivery to a top-quartile shared-services benchmark.
- ▶ **70-person global AR team** built from scratch across four regions, standardizing order-to-cash end to end.
- ▶ **250+ people led** across global locations, with BPO transitions governed at consistently high service levels (SLAs).
- ▶ **+30% collection performance / -9 DSO days** delivered through a global collections and credit-strategy redesign across the O2C cycle.

CORE EXPERTISE

CFO & Finance Processes

Deep, end-to-end command of finance processes — accounting, controlling, reporting, planning and ERP — with CFO-level ownership of the numbers.

Accounting · Controlling · Reporting · ERP

Post-Merger Integration

Harmonizing finance processes, systems and teams through mergers — capturing cost synergies without service disruption.

Synergies · Harmonization · Change

Shared Services / GBS

Building and scaling global SSC/GBS operations to top-quartile benchmark performance.

SSC/GBS · Benchmarking · Delivery

O2C & Credit Risk

End-to-end order-to-cash, collections and credit strategy that improves cash and reduces DSO.

O2C · Collections · DSO · Working capital

BPO Transition & Governance

Outsourcing decisions, partner selection and flawless transition with ongoing SLA governance.

Vendor selection · Transition · SLAs

Leadership at Scale

Building, motivating and developing high-performing global teams of up to 250+ across regions.

250+ people · Talent · C-level

EXPERIENCE

Natur Tanya Kft 2026 – present

Chief Financial Officer 2026 – present

- Implemented a new ERP system and reconciled accounting data into a single, reliable source of truth.
- Automated the creation of the monthly reports allowing time to improve the planning process
- Reduced external accounting costs by 25% by cleaning up the books and bringing processes in-house.
- Built a clear organizational structure with a responsibility (RACI) matrix, clarifying ownership across the company.
- Own HR responsibilities alongside finance leadership — hiring, structure and people processes.

BI Avenue 2022 – 2026

Business Development Consultant 2022 – 2026

- Advising leadership on business operations, planning and efficiency across strategic advisory, SAP consultancy and stakeholder relationship management.

Nokia 2007 – 2022 · promoted from senior manager to global head

Global Head of Strategy & Competence Development 2021 – 2022

- Launched a global competence-development program for Collections, aligned to business goals and individual growth plans.
- Deployed a global collections IT tool across all regions, improving process efficiency.

Global Head of Collections 2020

- Directed global collections and credit-management strategy across the full order-to-cash (O2C) cycle.
- Lifted collection performance by 30% and reduced DSO by 9 days via workflow optimization and cross-regional collaboration.

Head of Credit Management Office, Europe & MEA 2018 – 2019

- Led EMEA collections with internal teams and external BPO providers, improving outcomes and stakeholder alignment.

Head of Source-to-Pay Operations & Service Delivery 2012 – 2017

- Led 250+ people across global locations to top-quartile shared-services benchmark performance.
- Delivered a 40% source-to-pay cost reduction post-merger through role redesign and service relocation; governed outsourcing at high SLAs.

Service Integration Manager, Accounts Payable 2012

- Harmonized direct and indirect AP processes and unified invoice-scanning across regions, automating workflows.

Accounts Receivable / Revenue Recognition Senior Service Manager 2007 – 2012

- Built a global AR team from zero to 70 people across four regions, standardizing O2C processes.
- Played a key role in the Nokia Siemens Networks post-merger integration, strengthening revenue recognition.

Diageo 2002 – 2007

Purchase to Pay Manager 2006 – 2007

- Led 75 people; automated invoice processing, improving purchase-to-pay efficiency.

Migration Coordinator / Team Leader 2002 – 2005

- Migrated finance processes to Budapest and led the team responsible for issue resolution in finance operations.
